

U. S. WARNED OF FARMERS' PLIGHT

Senate Post Office Committee Told of Condition Called Serious.

TILLERS OF SOIL MAY STRIKE

Declare Work Too Hard and Return Too Small—Complain of Ease, Comfort and High Wages of the City Dweller.

Washington, Jan. 31.—Decreased farm production next year and a consequent increase in the cost of living, due to dissatisfaction of farmers, was predicted before the senate post office committee by James I. Blacklee, fourth assistant postmaster general.

More than 40,000 answers to 200,000 questionnaires sent to farmers, he said, indicate a condition "disquieting and portentous of disastrous consequences."

A report summarizing the contents of the farmers' answers, prepared by George L. Wood, superintendent of the division of rural mails, was read by Mr. Blacklee.

Asserting that the farmers were tired of receiving low returns for long, hard periods of toil while city dwellers lived in "ease and comfort with high wages and short hours," the report said that replies received indicated that hundreds of farmers had resolved either to quit the farm entirely or greatly decrease production.

Complaint was made in a majority of the replies, the report said, of the high prices paid by consumers as compared with the low return to the farmer, indicating an entirely disproportionate profit for the middleman.

Many farmers, the report said, drew comparisons between "the hours of labor required of the farmer and his compensation with those of the urbanite of which the farmer bitterly complains, setting forth the soft and luxurious living of the latter as compared with the hard and bare living of the farmer, who is no longer willing to toil and produce for the striker, the profiteer and the short-hour, high-wage man."

Inability to obtain farm labor was another complaint of the farmers, asserting that the shortage of farm labor was "causing great antagonism on the part of the producer toward the city dwellers."

The report said that the great demand in the cities for labor with high pay and short hours is driving the farmer and his family to the city and girls to the city.

"The high cost of wearing apparel, of staples not produced on the farm, of farm implements and fertilizers, all of which tend to have filled the farmer's mind with discouragement and pessimism, is certain to result in the curtailment of food production," the report said.

Extension of the rural parcel post service to make it easier for the farmer to sell his products direct to the city consumer was advocated by Mr. Blacklee as one step toward correcting the condition indicated.

FACED IMPEACHMENT

F. D. Roosevelt Says Luck Alone Saved Him.

Declares He Spent \$400,000.00 for Guns for Navy Before Congress Gave Him Permission.

New York, Feb. 3.—In describing alleged conditions of unpreparedness in the American navy prior to the war with Germany, Franklin D. Roosevelt, assistant secretary of the navy, declared in an address at Brooklyn that as the result of his efforts to obtain an adequate program of action he had "committed enough illegal acts to put him in jail for 999 years."

He said he undoubtedly would have been impeached if he had made "wrong guesses." "Two months after war was declared," said Mr. Roosevelt, "I saw that the navy was still unprepared and I spent \$400,000 for guns before congress gave me or any one permission to spend any money."

DECLINES AID TO EUROPE

Glass Says Peoples Overseas Must Meet Their Own Problem of Sinking Exchange.

Washington, Feb. 2.—Europe, in so far as the United States government is concerned, must rely upon her own resources in retrieving financial equilibrium.

This was the interpretation here generally of the letter Secretary of the Treasury G. H. Glass has sent to a meeting of the Chamber of Commerce of the United States, which sought a government expression on the proposed international conference of financiers and commercial leaders to discuss reconstruction problems.

In a blunt statement of the facts as he sees them, Mr. Glass declared "the American government has done all that it believes advisable and practicable to aid Europe. The conference," he added, "would serve to cause confusion and revive hopes, doomed to disappointment, of further government loans."

WHAT THEY OWE UNCLE SAM

Interest on U. S. Loans to European Countries Now Amounts to \$325,000,000.

Washington, Jan. 31.—Accrued interest on loans to European countries totals approximately \$325,000,000, according to a table submitted to the house ways and means committee by the treasury department.

Great Britain owes the most interest, \$144,440,837. Interest owed by other countries is: France, \$94,621,749; Italy, \$54,268,589; Russia, \$10,592,662; Belgium, \$11,468,278; Czechoslovakia, \$1,608,038; Serbia, \$10,129; Roumania, \$609,873; and Liberia, \$548.

MEREDITH SAYS SPEED OUTPUT

New Secretary of Agriculture Has High Cost of Living Cure.

DISCHARGE ALL IDLE HELP

Declares Useless Employees and Middlemen Must Be Released From Nonproductive Work That They May Become Producers.

Washington, Feb. 4.—Reduce the number of middlemen and encourage their return to the farms to help increase production of food.

That is the message brought to the capital by the new secretary of agriculture, E. T. Meredith of Iowa.

Mr. Meredith was sworn in amid clamors for his immediate attention to the problem of reducing the cost of living. He had been inundated with telegrams and letters from all parts of the country asking what he is going to do to bring down prices.

The secretary, a tall, thin man of nervous, intense energy, with black wavy hair, black, piercing eyes and black, close-cropped mustache, slightly touched with gray, was running through these messages and expressing amazement that they should be addressed to him.

"There must be a general feeling that the cost of living is essentially an agricultural problem," Mr. Meredith observed, as he added another of the stack of messages. "It is, of course, related to agriculture, but more than to many other lines of activity, and I am tempted to believe that the solution of the problem lies more in the hands of those interested in distribution and nonproductive enterprise than in the hands of the farmer."

The secretary said the farmers will produce their utmost "if given satisfactory conditions."

"What is the matter with conditions?" he was asked.

"Matter?" Mr. Meredith ejaculated, his eyes fairly blazing. "It certainly does not spur a farmer to greater production to be obliged to sell his products for half or less than he later sees them sold for at retail."

"The dairy farmers wonder if they are treated fairly when they receive \$5 to 40 cents for butter, and see it retailed at 85."

"The poultry men wonder why, when they receive from 40 to 50 cents for eggs, they retail as high as \$1 a dozen."

"The big growers wonder if they are not in a 'hazardous' business when they buy fertilizer and all other supplies at greatly increased prices and then sell their product full 50 per cent and sold by them at an actual loss in answer to a demand on the part of the rest of the population for a reduced cost of living."

"Business men," he continued, "must see that no useless employee is retained to add to the cost of distributing what the farmer now produces. Useless employees must be released from nonproductive work that they may go into productive work."

"Let us enjoy in America as highly developed a system of distribution—and let this include all the professions, doctors, lawyers, teachers, as well as retailers, transportation, etc.—as we now have, but let us cut out the useless member, the surplus one here and there, and give him an opportunity to become a producer upon the farm or in the factory."

"If the entire country, all business and all labor, does not recognize this as a common problem and do those things which give the farmer a fair compensation for his efforts, conditions will not improve."

WAY TO GET LIQUOR

Bureau of Internal Revenue Gives Rules on Whisky Sales.

Physicians Can Prescribe Intoxicants if Needed by Patients—Six Quarts Limit.

Washington, Jan. 31.—Méthode by which intoxicating liquors may be obtained for medicinal purposes and detailed regulations governing their sale were made public here by the bureau of internal revenue.

Announcement also was made that the bureau had compiled a system of permits, providing a definite and fixed channel through which all intoxicating liquors must move and by which hereafter the government will know the location of every gallon of distilled liquor within the nation's boundaries, except that stored in private homes.

In setting forth the ways in which liquor may be procured, Commissioner Roper took occasion to issue a warning against profiteering in its sale. The commissioner declared that exorbitant charges for liquor for medicinal purposes "certainly places the dispensers thereof in the class with profane and those who will be investigated."

Both the physician who prescribes and the pharmacist who sells liquor, the regulations provide, must have a permit which may be obtained from the federal prohibition director.

Other details follow:

"Any physician duly licensed to practice medicine and actively engaged in the practice of such profession, may obtain a permit to prescribe intoxicating liquor and may then issue prescriptions for 'distilled spirits, wines or certain alcoholic medicinal preparations for medical purposes for persons upon whom he is in attendance in cases where he believes that the use of liquor as a medicine is necessary."

"In no case may spirituous liquor be prescribed by one or more physicians in excess of the limit for the same person within any period of ten days."

"Physicians may also obtain permits entitling them to procure not more than six quarts of distilled spirits, wines or certain alcoholic preparations, during any calendar year, for administration to their patients in emergency cases, where delay in procuring liquor on a prescription through a pharmacist might have serious consequence to the patient."

6,300,000 WORDS IN DEBATE

Bound Volume of Treaty Speeches Fourteen Inches Long, Eight Wide and Seven Thick.

Washington, Feb. 3.—Urging economy in printing, Senator Smoot of Utah told the senate that senators have uttered no less than 6,300,000 words in speeches on the peace treaty.

He showed the senate a bound volume of the peace treaty speeches: It was 14 inches long, 8 inches wide and 7 inches thick, and contained 3,000 pages.

"It doesn't include the innumerable newspaper articles, editorials, letters and petitions read into the record during the consideration of the treaty."

And the end of the treaty fight is not to sight.

SIMS' FIGHT ON OFFICER BARED

Daniels Says Admiral Let Personal Affairs Affect Award.

OPPOSED WILSON FOR POST

Secretary Tells Senators Navy Honors Are Given for Merit Regardless of Rank—Records Show Blue-Jackets in Many Battles.

Washington, Feb. 4.—Personal differences developing between Rear Admiral William S. Sims and Admiral Henry B. Wilson, former commander of American naval forces off the French coast, were followed by the omission of Admiral Wilson's name from the list of officers recommended for medals by Admiral Sims, the senate committee investigating naval decorations was told by Secretary Daniels.

"While Admiral Sims recommended young officers who served well in minor posts for distinguished service medals and other flag officers under his command for the same honor," said Mr. Daniels, "he omitted that distinguished admiral who commanded all American naval forces off the French coast, Rear Admiral Wilson, who commanded the fleet of the Atlantic."

"When the history of the war is written Admiral Wilson's service will stand as high as that of Sims, Mayo, Benson or Rodman."

Sims Sent Protest.

When it was decided to appoint Admiral Wilson commander-in-chief of the Atlantic fleet, Secretary Daniels said, Admiral Sims wrote a letter of protest. Characterizing the contemplated appointment as a "very grave mistake indeed," the letter called Secretary Daniels' attention to the "double standard" Wilson gave him in the discharge of his duties.

"I attempted to correct it by personal letters," Admiral Sims' letter said. "Admiral Wilson criticized not only this organization, but me personally, including that most destructive of all criticisms, the impugning of motives."

Secretary Daniels appeared before the committee to answer criticisms of Admiral Sims and other officers of the manner in which naval decorations were awarded.

Asserting that Admiral Sims while on shore duty both in the Spanish-American and world war "demonstrated ability of a high order," Secretary Daniels said "the position of Rear Admiral Sims in placing shore duty above sea duty in the danger zone is, no doubt, influenced by his own record."

Figures were presented by Mr. Daniels showing that during the last 25 years Admiral Sims had served about 10 years on shore duty and nine years at sea.

Referring to Sims' criticism that his recommendation of a distinguished service medal for Commander J. C. Babcock, his chief of staff, and his "everything" had not been followed, Secretary Daniels said:

"If I had thought Commander Babcock the 'everything' of the navy across the sea, I certainly would have sent him to represent me instead of Admiral Sims. I do not believe in having two supermen to do a one-man job."

Precedence in Foreign Navies

Turning to an analysis of Rear Admiral Sims' criticism of the award of honors to commanding officers who lost their ships, Secretary Daniels read reports from the department of naval intelligence showing the award by the French, Italian, Japanese and British governments of medals to many officers whose ships were sunk by submarines, mines or enemy gunfire.

When Secretary Daniels finished reading his statement Chairman Hale announced that the committee would adjourn until Friday to give the members an opportunity to study carefully the secretary's statement. Mr. Daniels will appear before the committee again Friday.

Referring to the record of Admiral Sims' testimony before the committee, Secretary Daniels said:

"Admiral Sims says our navy was not in this war in a fighting sense. We were acting as motor torpedoes behind the army except that we were on the water. There was no fighting on the sea."

"If Admiral Sims had told the men on our vessels operating in the war zone that they were not really fighting and that their ships were only 'motor torpedoes' he would have had a revolt in his command."

"Thought It Was Fighting, Anyway."

"The crews of our destroyers and patrol craft constantly hunting and often attacking submarines, thought they were fighting. The armed guards on American merchant vessels which repelled numerous attacks thought they were fighting when they kept their guns firing at the enemy while shells rained about them."

"The crews of the stranch little submarines and fighting pretty well when they led the attack on Durazzo, cleared mines from the path of the big warships and, under heavy fire from the Austrian forts, sent down two submarines."

Big Distinction for Rank

DUTCH BLOCKADE HINT

ALLIES DISCUSS NEXT MOVE TO HOLLAND REGARDING KAISER.

May Break Off Diplomatic Relations if Demands Are Again Refused, Is Report.

Paris, Feb. 4.—The entente rejoints to the refusal of Holland to accede to the allied demand for the extradition of former Emperor William is imminent, according to the Petit Parisien.

The newspaper says that, while the note will be generally conciliating toward Germany, it will consider, in case of a new refusal by Holland, measures going as far as the breaking of diplomatic relations or a naval blockade of Dutch ports.

Discussions relative to the question of a defensive alliance between France, England and Belgium have progressed materially during recent conferences at Ypres, according to a Brussels dispatch to the Egelesior. It is said the Belgian government has drafted and sent to the French government a general outline for the projected common defense in case of a future German attack.

any enlisted men for medals because "we had nothing to give them," the secretary called the committee's attention to the fact creating the awards which he said made no distinction between an admiral, captain and enlisted men.

Emphatic denial was made by the secretary of Admiral Sims' statement that the policy followed in awarding medals had "shot to pieces" the navy's morale.

"It is an insult to the splendid men of the navy to say that the morale of the service could be seriously impaired by any question of awards to individuals," the secretary said.

MAKING HASTE SLOWLY.

There is something extremely fascinating in quickness, and most men are desirous of appearing quick. The great rule for becoming so is by not attempting to appear quicker than you really are; by resolving to understand yourself and others, and to know what you mean, and what they mean before you speak or answer. Every man must submit to delay before he is quick and insignificant before he is important.—Sydney Smith.

Peerless Mohair Top Dressing
Makes Old Tops Look Like New
Waterproof Leaking Tops
A dressing made especially to waterproof mohair tops that are in good condition, but which leak in rainy weather. This dressing contains just enough black dye to make a faded and stained top look like new. In waterproofing mohair top material, it does not build up or change the character of the cloth, but cements the mohair top material together, drying over night, ready for use, and will not collect dust or dirt, always leaving the top soft and pliable.
Peerless Mohair Top Dressing "Clear" is used as a waterproofing material for light colored tops. It is not for leather.

Peerless Leather Top Dressing
For Leather, Rubber, Pantasote Tops and their Imitations
An oil preparation made to renew the dead finish on old top leather and its imitations. Tops are subject to all kinds of weather and wear, and an oil preparation is necessary to put back the oil, which the top has lost. This softens the top and leaves it soft and pliable. Dries over night with a bright finish, wearing indefinitely. Made for black leather only and not seats or cushions. Also made in dull finish for those who prefer it. The regular dressing dries with a bright finish. Also made in Semi Bright and dull Finish. Please specify if either of these are desired.

HOPE TO ELIMINATE EVERY SCRUB BULL

Prof. D. S. Bullock sends out a weekly sheet entitled, "Boost Better Bulls." This week he has an article pertaining to the bull census taken last year. I believe it is very much to the point. Here it is:

Last year a bull census was taken thru the rural schools in one of our counties. The children took the blanks home and filled them out and brought them back the next morning.

Is one family a girl under ten years of age got out her blank and pencil in the evening after her father came in from doing the chores and began asking questions.

"Dad, is our bull a scrub?" "Why, Mary, what do you want to know for?"

"Well, the teacher gave each of us one of these blanks to fill out and bring back tomorrow. She said the county agent wanted to find out how many purebred and how many scrub bulls there was in the school district."

Dad continued to look over his paper and didn't answer. Finally Mary said:

"Dad, our bull isn't a scrub, is it?" "It ain't a purebred so, I guess you'll have to put it down as a scrub."

Mary carefully but regretfully wrote the word scrub in the proper place on the blank. This duty done, she looked up and asked: "Say, Dad, why can't we have a nice purebred bull like other folks instead of an old scrub?"

Dad was too interested in his paper to answer this query of his interested daughter.

The next day on his way to town who should he meet but one of his neighbors who has a good purebred herd.

"John, you haven't got a good bull calf for sale, have you?" "Neighbor John said he didn't have any, just then but would in two or three months."

"Well, just save me the next good one you have. Do you know Mary came home last night and wanted to know why we couldn't have a good purebred the same as other folks. So I guess I have to get on."

Which township in the county of Wood will be the first to celebrate the passing of the scrub bull?

Which will be the first to say that each individual whose dam and sire's dam are better producers than the cow which you expect to mate with the bull. Otherwise you can expect no improvement in your herd.

Another word of caution! When you get a purebred be sure that you get something besides papers. Get a good individual whose dam and sire's dam are better producers than the cow which you expect to mate with the bull. Otherwise you can expect no improvement in your herd.

PATROL SUPERINTENDENT WOULD OPEN RURAL ROADS

Thos. Platts, of Pittsville, was in the city Monday in conference with Highway Com. Ed. Morris in regard to the condition of the rural roads.

Mr. Platts is superintendent of patrolmen for Wood county and has a scheme for keeping the roads open during the winter which would make it possible to travel them by team and sleighs, at least, and even possible by cars under favorable conditions.

The scheme Mr. Platts has in mind is running a plow along each side of the road throwing the snow out of the way.

The high ridge which is so troublesome in the center of the roads, he states, can be disced and cut up. He says that if a drag is then run back and forth over the road it will harden up and make a smooth flat bed.

The scheme has been worked successfully between Pittsville and Dexterville, he states, and the road is in good shape. Other places where it has not been done they are practically impassable for even teams and sleighs, the farmers state.

Robt. Gardner, who has been working on the Pittsville-Dexterville road has a smooth hard surface on that highway that is quite a contrast to the other roads in the county that have not been worked.

Mr. Morris also had some experience along this line, the town of Arpin having put their roads in shape during the winter in this way with considerable success.

Every year, Mr. Platts, it is up to the towns to put their roads in shape in winter, the county having nothing to do with the matter unless some one complains that the snow is not kept off the road.

The plan which Mr. Platts has in mind, however, he states is a good one and might be used to advantage by the towns of the county.

At the Madison road school Mr. Morris states that the matter of snow removal with plows and by other means was brought up and discussed, and it was found that very poor results were gained in ratio to the amount of money that was spent in plowing the roads.

It is more practical now than it was earlier in the winter, he says, as the snow is settled and will not drift as much.

ARPIN COUPLE MARRIED BY JUDGE POMAINVILLE

Miss Martha Vanden Bergan and Mr. Chester Bray, both well known young people of Arpin, were married Saturday morning by Judge E. N. Pomainville in this city, the usual ceremony having been performed in his office at 9:15 that morning.

Miss Augusta Vanden Bergan was the bridesmaid and Charles Bray, Jr., was the groomsmen. The bride was very pretty in a light blue silk gown trimmed with beads, the bridesmaid making a very attractive appearance in a blue voile with satin stripes.

Following the ceremony the wedding supper was served at a wedding supper at the home of the bride's parents, following which there was a dance and party at which many of their friends gathered and spent a pleasant evening.

The home being very attractively decorated for the occasion with flowers. Both Mr. and Mrs. Bray are popular young people of their community, the bride being the daughter of Mr. and Mrs. Peter Vanden Bergan while the groom is the son of Mr. and Mrs. Charles Bray.

The bride lived with her parents on a farm near Arpin and has a host of friends there. The groom farmed previously to their marriage near Arpin, being an industrious and successful young man. The Tribune unites with their many friends in wishing them every happiness in their married life.

PLAN TO MOVE GRANDSTAND TO SCHOOL ATHLETIC FIELD

Following favorable action by the City Council, the Chamber of Commerce, and the School Board, it has been decided to move the grandstand from the high school to the high school athletic grounds, where it will serve for both school and public events.

The only stipulation the board made when it was brought to their attention was that it be kept painted and in good condition.

Advertising, Aldermen Roeluis Gardner and Tomsyck bringing the matter before them at their regular meeting Monday night.

John Cort's hilarious, musical pageant of beauty, wit and fashion, entitled "Flo-Flo" which delighted New York at the Cort Theatre for more than one sold year will be the offering at Dalys Theatre here on Monday, Feb. 16th, following its successful Boston and Chicago engagements.

The "perfect 36" chorus of the show which Broadway has dubbed "the perfect 36" chorus, a production credited with being the only comedy chorus ever seen on a New York stage. Its eccentric dancing never fails to please and is an effective background for the work of the stars.

What's What in Tractors

THE BIGNESS OF THE BUSINESS

Within the very near future, the farmers of this country will be buying Tractors and Power Farm Equipment to the tune of nearly \$500,000,000 a year.

Experience has made clear the fact that there is no such thing as a saturation point for automobiles. Official figures today indicate the use of more than 6,500,000 automobiles, and the actual demand never has been satisfied, to say nothing about what the potential demand may be.

Will the Tractor have the same experience?

Wisconsin has 177,127 farms. Average acreage 118.9. Per cent improved 55.5. Tractor possibilities 100,000. During the twelve months ending August 15th, 1919, 48,000 tractors had been sold in Ohio, Indiana, Illinois, Wisconsin, Minnesota, Missouri, Iowa, North and South Dakota, Nebraska and Kansas.

There are 287 tractor concerns of which ten lead the field. From March 1918 to January 1, 1920, 92,500 tractors of one make were built. The estimate for 1920 for all makes of tractors is 250,000.

NOTICE OF REFERENDUM ON PROPOSED CONSTITUTIONAL AMENDMENTS April 6, 1920.

State of Wisconsin, Department of State, ss.
NOTICE IS HEREBY GIVEN that at the time of holding the regular Spring, Judicial and National Delegate Elections, to be held in the several towns, wards, villages and election districts of the state of Wisconsin, on the first Tuesday of April, 1920, being the sixth day of said month, in accordance with Section 1 of Article XII of the Constitution of the State of Wisconsin, and as directed by Chapters 480 and 504, Laws of Wisconsin for 1919, the following proposed Amendments to the Constitution of the State of Wisconsin, which were twice adopted by the Wisconsin Legislature at the regular sessions of 1917 and 1919, and published for three months as required by said Section 1 of Article XII of the Wisconsin Constitution, will be submitted to a vote of the electors of this state for their ratification or rejection in such manner as is provided by law. (Jt. Res. No. 13, A.)

JOINT RESOLUTION No. 37, 1919 To amend section 21 of Article IV of the constitution, relating to compensation of members of the legislature.

WHEREAS, At the biennial session of the legislature for the year 1917, an amendment to the constitution was proposed and agreed to by a majority of the members elected to each of the two houses, which proposed amendment is as follows:

Resolved by the Assembly, the Senate concurring, That section 21 of article IV of the constitution be amended to read: (Article IV) Section 21. Each member of the legislature shall receive for his services such sum to be paid at such times and in such manner as shall be prescribed by law. * * * The compensation prescribed for members of the legislature immediately prior to the adoption of this amendment shall continue in force until changed by the legislature in a manner consistent with the other provisions of the constitution, now, therefore, be it

Resolved by the Assembly, the Senate concurring, That the foregoing proposed amendment to the constitution of the state of Wisconsin be and the same is hereby agreed to by this legislature.

NOTE.—(If ratified this amendment will authorize any legislature to fix the compensation of members of the succeeding legislature at more or less than the present allowance of \$500 for the term of two years.) (Jt. Res. No. 100.)

JOINT RESOLUTION No. 92, 1919 To amend sections 4 and 7 of article VII of the constitution of the state of Wisconsin, relating to circuit judges.

WHEREAS, At the biennial session of the legislature for the year 1917, an amendment to the constitution was proposed and agreed to by a majority of the members elected to each of the two houses, which proposed amendment is as follows:

Resolved by the Assembly, the Senate concurring, That section 4, article VII, and section 7, article VII of the constitution, be amended to read: (Article VII) Section 4. The legislature may alter the limits, decrease or increase the number of circuits, making them as compact and convenient as practicable, and bounding them by county lines, but no such alteration, decrease or increase shall have the effect to remove a judge from office.

In case of an increase in circuits, the judge of judges shall be elected as provided in this constitution and receive a salary not less than that here provided for judges of the circuit court.

Section 7. For each circuit there shall be chosen by the qualified electors thereof one or more circuit judges, as the legislature may provide, to time to time. Every circuit judge shall reside in the circuit from which he is elected and shall hold his office for such term and receive such compensation as the legislature shall prescribe; now, therefore, be it

Resolved by the Senate, the Assembly concurring, That the foregoing proposed amendment to the constitution of the state of Wisconsin be and the same is hereby agreed to by this legislature.

NOTE.—(If ratified this amendment will permit the legislature to abolish any judicial circuit at the expiration of term of its circuit judge, to decrease the number of circuits by consolidation or otherwise, and to authorize one or more judges for any circuit.)

WORK ON NEW RUDOLPH SCHOOL IS PROGRESSING

The brick-selling contest is speeding up nicely. Mrs. Peter Herd is in the lead with 758 numbers credited to her name; Albert Peters is second with 648, and Mrs. Henry Kempen third with 554 brick sold. Everyone is anxiously watching the close race.

Forty thousand soft brick and 11,000 building tile were recently purchased by St. Philomena's congregation from Kellogg Lumber Co. at Vesper, and were hauled in 133 sleigh loads from Vesper the past week.

The new church and school will bear the name of St. Philip. This name has been selected by the Catholic congregation in honor of their pastor, Rev. Philip Wagner.

The excavating for the new school building will begin this week, and all things will be prepared to begin building as soon as possible.

To celebrate the beginning of St. Philip's school there was no school last Tuesday.

The play "Back to the Farm" so well rendered a few weeks ago by the Pleasant Valley school will be given Sunday evening, Feb. 15th, at eight o'clock, for the benefit of the new school. Tickets 35 and 20 cents. After the play lunch will be served by the Ladies Aid Society.

The Committee on Teachers and Texts reported as follows:

This committee received a petition from the grade teachers for an increase in salary. The committee after considering the merits of the complaint recognize the fact that teachers are not getting the money they are willing to grant relief. However, the amount asked for this year from the City Council was based on the contracts already made.

The committee recommended that the Board of Education be authorized to increase of five dollars a month for all teachers. To advance salaries generally after the tax roll has been made up is impossible without creating a serious deficit, and the Board of Education at the present time with a deficit by March 1, of \$70,000. However, we recommend that the salaries of all teachers now receiving \$75.00 and \$77.50 be advanced to \$80.00 and \$82.50 be advanced to \$85.00 retroactive to Dec. 1, 1919. We are unable to find means for a further increase this year.

On motion the report was adopted.

On motion of Mr. Ragan the president and treasurer were authorized to borrow \$8,000 to meet expenses of the current month.

On motion meeting adjourned.

Signed, Guy O. Babcock,
Pres. of Board of Education.

Signed, E. G. Doudna,
Clerk of Board of Education.

PROF. JACKSON REVIEWS NEW RUSSIAN HISTORY

Prof. M. H. Jackson has written the following review of "Russia in 1919" one of the new books on the Soviet, Soviet Public Library. His review says:

"Do you read history? Do you enjoy a good novel? How would you like a book of facts written in such a novel way that you could not help enjoying it? Now add to this the special interest you are taking in the Russian situation of today and you have the book you want.

"Arthur Ransome is always interesting, and he is especially fascinating in 'Russia in 1919.' In it you have a personal interview with Lenin in which you gain some insight into the Bolshevik program. You also find a rapid review of the revolution and the Bolshevik program. You also find a rapid review of the revolution and the Bolshevik program.

"This and many other books on Russia are in the Public Library. Two late ones are Spargo—'Bolshevism' and Breshkovsky—'Little Grandmother of the Russian Revolution.' For the benefit of one of the clubs, a traveling library on Russia has been borrowed from Madison. Though club members have the preference, these books may be borrowed by any one interested.

"May I say that most of us do not know Russia at all, and for that reason we misjudge. We cannot endorse the evils of the Bolshevik program, but we should not try to kill off a Raymond Robins before his story is told for fear he may not agree with us. And we need not shut our ears to truth, for fear truth does not agree with us. Read Arthur Ransome any way. It is a book well worth reading.

ASK THAT EX-SOLDIER BE MARSHFIELD POSTMASTER

The American Legion of Marshfield has adopted the following resolutions, asking that one of the heroes of the recent war, who served with the Thirty-Second Division, be made postmaster at Marshfield, following the resignation of A. G. Pankow. The resolutions drawn up by the ex-soldiers are as follows:

Whereas, It has been brought to the attention of the Whittier Post of the American Legion of Marshfield, Wisconsin, that A. G. Pankow, Postmaster for Marshfield, and Ed. Rafferty, Assistant Postmaster of Marshfield, both resigned their positions, which resignations are to become effective in the near future;

Whereas, Fred B. Rhyner of Marshfield, Wisconsin, has for many years been employed in the post office at said city, in positions of trust and responsibility, and has always filled such positions with faithfulness and efficiency;

Whereas, Said Fred B. Rhyner served in the Great War, establishing for himself an enviable record, having answered the first call for the National Guard and going out as Battalion Adjutant of the First Battalion of the 127th Infantry, being then promoted to Captain and Regimental Adjutant of the 127th Infantry, in which position he served until discharged from the service;

And Whereas, Said Fred B. Rhyner is familiar with the methods and conditions of the Marshfield post office, and is especially qualified to fill the position of said postoffice;

Now Therefore Be It Resolved, That the Whittier Post of the American Legion of Marshfield, Wisconsin, emphatically endorse said Fred B. Rhyner for Postmaster for the city of Marshfield and recommend his appointment to that position.

Arthur M. Laemie Post Com. Geo. S. Wood, Jr., Ass't Post Adjutant.

Mad as a Hatter.

Mad, in Anglo-Saxon, is frequently used as a synonym for violent, furious, angry or venomous. After, in old English, means adder or viper. Hence the combination of the two words "mad" and the corrupted "hatter" merely means "as venomous as an adder." And the proverbial saying has, therefore, no reference to hatmaking at all.

If you want to know what rare and unusual enjoyment Camels provide smoke them in comparison with any cigarette in the world at any price!

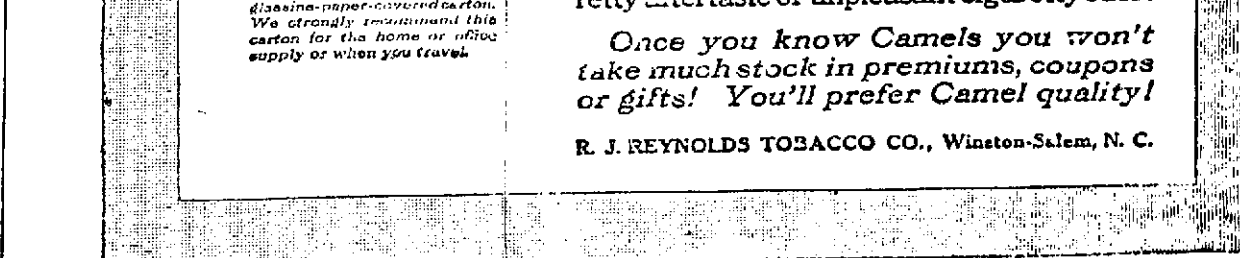

CAMELS are a cigarette revelation any way you consider them! Take quality, or refreshing flavor and fragrance; or, that wonderful mellow-mild-smoothness you never before got in a cigarette smoke! Yet Camels are so full-bodied and so full of satisfaction you marvel that so much delight could be put into a cigarette!

Camels expert blend of choice Turkish and choice Domestic tobaccos makes them so irresistibly appetizing! And, the blend explains why it is possible for you to smoke Camels liberally without tiring your taste! You will prefer Camels to either kind of tobacco smoked straight!

You'll realize pretty quick, too, that among the many reasons you smoke Camels is their freedom from any unpleasant cigarette aftertaste or unpleasant cigarette odor!

Once you know Camels you won't take much stock in premiums, coupons or gifts! You'll prefer Camel quality!

HOW FORMER LOCAL GIRL FINDS THINGS IN MONTANA

Watkins, Mon., Jan. 28, 1920.
Gentlemen:
Again the time is at hand when you are looking for a check which I will enclose. We are always glad to see our daily and weekly come, and believe me if the paper made good cattle feed every scrap would be saved as the farmers here have had a long winter, only since the 23rd of October that we had our first snow, and a foot of it which is still on, and another foot on top of that. The farmers had but little feed as the past summer was a dry one, with only one little crop, just enough to keep the farmer on the place. But a great many sold out and left and those that did not lose any stock. Some farmers lost as high as 28 head, that is a man that had about 50 head, those that had 300 lost 200 and then got busy and hauled feed 45 miles with three men on the road. We pay \$16.00 a ton for straw, \$28.00 to \$30.00 for wild hay and are glad to get it at that. But there is no place on earth like Montana I believe for fat cattle in the summer time. A Wisconsin farmer would think the cattle here were corn fed in the summer, but what they would think of them now I will not say. Just a year ago now we were cutting our flax as we here could get no help to harvest the crops and a man got as high as \$7.00 a day and board. Mr. Hinton, a rancher, living here has had an income tax last year of \$1,500.00, so you see old Montana did not always try to get her people to leave her. Brookway is off inland town 50 miles from a railroad where we take our produce. We get 60c for eggs and 58c for cream. We live in McCone County and are going to hold an election the 13th of February for the purpose to have the county furnish the seed for the farmers that must buy. Our bank at Brookway furnished one bushel of seed corn of any kind to each of her customers free of charge. Our nearest church is at Circle 18 miles from here and about our County Seat. Now if you wish to publish this you may do so, as I was one of the Grand Rapids girls four years ago, and will be remembered as Marie Yonko.
I remain yours truly,
Mrs. Wm. J. Mackin

HEART TROUBLE BROUGHT DEATH TO MRS. J. CARDEN

Mrs. John Carden, one of the well known older residents of this city, passed away at the home of her daughter, Mrs. John Erner, Sunday evening following a short illness caused by heart trouble. Mrs. Carden was seventy-two years of age at the time of her death.
Born in Kalamazoo, Michigan, in 1848, Mrs. Carden moved to Wisconsin when a child, settling in Kenosha with her parents. Later she came to this city, making her home here for many years.
She is survived by six daughters and two sons, the sons being Leland Carden of Seattle, Wash., and Hubert Douville, of this city, and the daughters are Mrs. John Brennan, Jr., Mrs. Selma Rosseau, Mrs. John Erner, Mrs. W. M. Martin, all of this city, Mrs. J. W. Skeel of Andigo, and Mrs. H. F. Corbett of Montana.
Her funeral services were held on Wednesday morning at 9:30 from St. Peter and Paul Catholic church, Rev. Wm. Reding officiating. Burial was made in Calvary cemetery.

CHURCHES PLAN RELIGIOUS MEETINGS DURING MARCH

At a meeting of the Grand Rapids Ministerial Association held at the Elks Club Friday, it was decided to hold a series of union religious meetings in the First Moravian church starting March 14th and lasting one week. The meeting was called by Rev. Rockstroh, president of the association, the following churches entering into the plan: Episcopal, First Moravian, Scandinavian Moravian, Zion Lutheran, Methodist, Baptist and First Congregational. The series will be a week of community religious services. There will be a chorus of thirty-five or forty voices and an eight piece orchestra to furnish the music. The committee which was elected to handle the arrangements includes Rev. Theo. Reinke, Rev. F. G. Olson and Rev. N. J. Breed.

CARD OF THANKS.

We take this means of thanking the many kind neighbors and friends who so kindly assisted us during our illness and after the death of our daughter and sister. We also wish to especially thank Mr. J. R. Ragan and Mr. John Erner for their kindness shown us, and for the many beautiful floral offerings.
Mr. and Mrs. Severa Primeau and Family.

—That effervescent combination of gorgeous gowns and witty epigrams, John Cort's musical comedy triumph "Flo-Flo" is the attraction to be presented at Dalys Theatre, Monday, Feb. 16th. It is one of the hits of Broadway running at the Cort Theatre for one solid year. Frolic, fun and frills form the "Flo-Flo" formula. It has won its way to public favor through its magnificent costuming, pertinent lines, pretty girls and lovely lyrics. Every member of its chorus is a "perfect 36". Each is blessed it is said with that rare attribute of the chorus-girl—a sense of humor and to this is credited a large degree of the play's success.

The way to reach her heart in time
If you'd beat Cupid to it
And make her your true Valentine—
Try it, you'll never rue it—
"Say it with Flowers!" Fine!
Don't stop to think—just do it.

HONESTLY NOW

Would'nt it be "kinda" good to get back into the O. D. again once in a while, grab an army rifle and go through the manual of arms? - - - Just for old times sake and to keep those shoulders hardened up to the "feel" of a gun?

And to show some of these young chaps, who are so anxious to learn, how you do "Right Shoulder.— ARMS!"—"one, two, three" just like that? These fellows want to learn some of the things that you used to say that you wanted to forget,—they're anxious to have you with them, for you will be leaders among them. You've been "through the mill" and whether you believe it or not, they will be mighty proud to be in the same organization with you.

As the years roll on, the darker clouds of the Army routine life will disappear, leaving only the ever-brightening golden memories of the "good old days." Perpetuate these traditions, recall that care-free, happy-go-lucky spirit of Doughboy days—re-awaken old memories.—You can do it by helping to form a National Guard Company in Grand Rapids.

TOOK REBUKE IN GOOD PART
Young Man Probably Right When He Said It Would Teach Him a Lesson.

Years ago when I was teaching in high school, we had considerable trouble with the students slandering the outside doors, and we lectured them often. It was my week for hall duty when one noon a young man entered the school building and banged the door.

I was much provoked and said, "Young man, will you please go out again and try and see if you cannot close that door more quietly? He looked rather surprised and said, "Yes, 'mam'" and did as I asked. I said, "That was better."

He then inquired where he would find one of our teachers. To my surprise he was not a student as I thought, but a friend making a call. I tried to apologize, but he said I tried to serve as a good lesson.—Exchange.

Wanted His Place.
A young man who is painfully bashful called upon my niece who was visiting us. Our little grandson is very fond of attention and clung upon the young man's knee, seated himself and began to chatter. He was called, and as he ran from the room he looked back and said: "Don't let any one get my place!"—Exchange.

RUMOR HAS IT THAT HUGH JENNINGS IS READY TO QUIT AS LEADER OF TIGERS

MANAGER HUGH JENNINGS
Manager Hugh Jennings and Jack Coombs, who has been engaged to coach the Detroit Pitchers.

It would not be a surprise if Detroit's signing Jack Coombs as assistant manager to Hugh Jennings proves a step toward making the man from Maine manager of the Tigers in another year.

Jennings has been active as a ball player and manager for 20 years or more, and it is rumored he plans to purchase a substantial block of the stock of the Detroit club now held by the William Waverly estate and become an official of the club, probably vice president, writes Henry P. Edmunds in Cleveland Plain Dealer. In that case, he would merely supervise the campaign of the team about as Coombs does at Chicago.

Hughie is forty-nine, and has been identified with the national game for nearly 30 years. He was a member of the Louisville National league club in 1891. He remained a player and one of the game's greatest stars for more than ten years. Then, after a few seasons as manager of the Baltimore Eastern league team, he came to the American league as manager of the Detroit team. That was in 1907 and he proceeded to win three pennants.

He suffered two accidents in the off-season that would have crippled an ordinary man for life, but he has been able to train each spring with his players and get out every day of the season and hit grounders in batting practice. He still is in splendid health but he would welcome a change that would be a promotion and relieve him of the wear and tear of traveling all season and the strain of sitting on a bench during a close game.

Strange as it may seem, Jennings never has been able to get as much out of his pitchers as the baseball world believed could be extracted. Hired Jim McGuire, Hughes realized that and did his best to hire someone who could. He had Jim McGuire catching the pitchers. There was no improvement. He got Billy Sullivan. He failed to get results. He tried Jimmy Burke and then Dan Howley, but was not satisfied. In Coombs he thinks he has the man.

Jack did wonders with the Brooklyn pitchers in 1916 and, while he did not have wonderful success as manager of the Phillies last season, it was largely because he was lamed on material.

When he joins Jennings at Macon, Ga., in March, Coombs will find a pretty fair pitching staff, but one that can be improved. Bohand, Daus, Leonard, Emke, Love, Cunningham and Ayres are good pitchers, but under the coaching of Coombs they should be even better.

Yale may make polo a major sport. A boxing bill is to be introduced in the legislature at Albany.

Rugby is to be back on Princeton's football schedule for next fall. Harvard baseball nine will start on its southern trip in February.

The Kansas City (Mo.) Athletic club will promote amateur boxing. Syracuse university has listed 17 games for its basketball quintet.

Wladek Zhyzsko wants another chance at his conqueror, Joe Stoecher. Syracuse university is to have a new bathhouse erected by next spring.

The Philadelphia motorboat clubs may add canoeing to their activities. The Olympic games athletic events are scheduled August 10 to September 10.

Yale is added and Princeton dropped from the College football schedule of 1920. Milwaukee has three indoor baseball leagues, made up of twenty-five teams.

The Western Skating association plans to promote ice skating among schoolboys. The Union Boat club, of Boston, also Harvard and Yale, may be represented in the Royal English Henley.

CLYMER MAY LEAD COLUMBUS
Former Manager Likely to Return as Chief Assistant to President Joe Tinker.

Bill Clymer, who managed a championship baseball team there a decade ago, probably will be manager of the Columbus American association baseball team in 1920. Joe Tinker, president of the club, announced that he is negotiating with Clymer and expects to sign him soon. Tinker also is after a dozen new players to strengthen the team.

Nowadays the football stars get their brushing up in the outdoors and then go to the majors just as they do in the baseball game.

BOXING ON BROADER LINES AT OLD YALE

Undergraduates Are to Don Gloves in Competition.

Plan Discussed for Two or Three Round Bout as Intermission Events — Moses King Will Have Charge of Classes.

The popularity which boxing enjoyed in both the army and the navy during the world war has led to decision by the Yale faculty to allow the organization of the sport along broader lines than heretofore. A boxing association will be formed and bouts will be held by the undergraduates at the different weights.

It is uncertain whether matches with representatives of other colleges will be allowed or not, as the sport is not organized among the Eastern universities, but a plan which has been discussed is that of having two or three round bouts as intermission events during the winter season. For instance, if a Yale-Princeton basketball game is scheduled, it has been suggested that, during the intermission, a three-round bout might be held between boxers of the two universities.

Moses King, the former Connecticut lightweight champion, will have charge of the boxing classes as well as the individual instruction. He has been boxing instructor at Yale for nearly 50 years, but no undergraduate championships have been held before, and no bouts with other colleges have been permitted. King was instructor of boxing at Camp Devens during the world war, and also had charge of the mitt instruction of Yale undergraduates as members of the Reserve Officers Training corps.

Herman P. Olcott, the Yale all-around Freshman coach, was athletic director at the Great Lakes naval station, and regards boxing as a fine training for football and other major sports.

Eddie Egan, winner of the middleweight boxing tournament, which was held at Paris, of the American expeditionary forces this spring, will probably be chosen head of the proposed boxing association. He played half-back on the Yale eleven last fall and will be on the track team next spring.

He headed the Yale delegation to the student volunteer congress in Des Moines, Iowa, during the holiday recess.

WESTERN CANADA CORN

Wins First Honors at Kansas City.

While visiting the Canadian Government Information Bureau at Kansas City, where there is an exhibition of a very creditable display of Canadian products, my attention, says a writer in the agricultural press, was directed to a few ears of Dent corn, bearing the modest inscription:

"This Northwestern Dent corn took the first prize at the Soil Products Exposition recently held in Kansas City, Mo., and was grown by John Hamilton of Kelwood, Manitoba."

Kelwood, Manitoba, lies about twelve hundred miles north of Kansas City, and it was quite pardonable that those Canadians should so proudly parade the fact that they had been able to carry off for their corn display the blue ribbon that for years the old "corn-growing" states had looked upon as being practically their own, and for which they were strong contestants in the recent show.

I asked Mr. Hewitt, agent in charge of the Canadian Government office at 2012 Main Street, Kansas City, what the winning of the prize means for Canada. His reply was that it means the "corn belt" is moving northward, and in a few years to the fame that Canada has already achieved as a wheat, barley and oats producing country, will have to be added that of growing the best corn in America.

"Why," he said, "twenty years ago a friend of mine was attracted at the Minnesota State Fair by the number of those who were examining some corn grown north of Crookston, Minnesota. It was not the large ear produced farther south, but it was an even ear and perfect kernel. The interest centered in it was the fact that it had been grown so far north. That was twenty years ago. Today, the traveler on any of the railways in that section of the country may see field after field of corn. In many portions of Manitoba," he continued, "out into Saskatchewan and Alberta, the growing of corn is receiving much attention, at present mainly for fodder, but within a short time, with accelerated seed a maturing crop of good quality may reasonably be expected. Already the number of silos in use in Western Canada indicates that the progressive farmers there look forward to the day when corn will be one of their most important crops."

"Corn lands in South Dakota are said to be selling as high as \$250 per acre, and if corn has been the means of placing those lands at this price what may be expected of Western Canada lands, when the day comes that corn will be grown as successfully there?"

It was not in corn alone that Western Canada carried off the honors at the Soil Products Exposition. The corn was won by Western Canada were 40 first, 20 second, and 20 third prizes. These included 1st, 2nd and 3rd prizes for hard spring wheat; the sweetstakes for wheat and the cup offered by Canadian Pacific Railway for the best half-bushel of hard spring wheat; 1st, 2nd and 3rd prizes and sweetstakes for oats; 1st, 2nd and 3rd prizes for barley; and 2nd and 3rd prizes for corn.

It is interesting to note that the sweetstakes for wheat and first prize for hard red spring wheat have been won by Saskatchewan exhibitors seven times in the last eight years, Manitoba winning one year.

Potato diseases have some interesting successes for Western Canadian exhibitors, who won four firsts, three seconds and three thirds. Exhibitors from these provinces also made fine showing in the vegetable classes, winning among other prizes the premium prizes for cabbages, cauliflower, pumpkins, squash and watermelons.

The Right Way
In all cases of DISTEMPER, PINK EYE, INFLUENZA, COLDS, ETC. of all horses, brood mares, colts and stallions is to

"SPOHN THEM"
on the tongue or in the feed with SPOHN'S DISTEMPER COMPOUND

Give the remedy to all of them. It acts on the blood and glands. It routs the disease by expelling the germs. It drives off the trouble no matter how they are "expelled." A few drops a day prevent those exposures from contracting disease. Containing nothing injurious. Sold by druggists, harness dealers or by the manufacturers, 50 cents and \$1.00 per bottle. Perfect Health Is Yours If the Blood Is Kept Pure
Almost Every Human Ailment Is Directly Traceable to Impurities in the Blood.

You should pay particular heed to any indication that your blood supply is becoming sluggish, or that there is a lessening in its strength and vital force. By keeping your blood cleansed your system more easily wards off disease that is ever present, waiting to attack wherever there is an opening. A few bottles of S. S. S., the great vegetable blood medicine, will revitalize your blood and give you new strength and a healthy, vigorous vitality. Every one needs it just now to keep the system in perfect condition. Go to your drug store and get a bottle to-day, and if you need any medical advice, you can obtain it without cost by writing to Medical Director, Swift Specific Co., 46 Swift Laboratory, Atlanta, Ga.

LUCKY STRIKE CIGARETTE

GET a package today. Notice the flavor—the wholesome taste of Kentucky Burley tobacco. Why do so many "regular men" buy Lucky Strike cigarettes? They buy them for the special flavor of the toasted Burley tobacco. There's the big reason—it's toasted, and real Burley. Make Lucky Strike your cigarette.

SCOUT WEEK OPENED WITH MASS MEETING

"Good Turn Week" under the auspices of the Boy Scouts of Grand Rapids, was opened at Daly's Theatre Sunday evening with a public mass meeting, at which a crowd which well filled the theatre was present. Several good talks were given during the evening by both local and outside speakers. The Scouts repledged their allegiance to their organization when more than one hundred present stood up at 8:15 and in a body repeated the Scout pledge.

A. J. Hutton, head of the Industrial School for Boys, at Waukesha, was the principal speaker of the evening, addressing the crowd on the subject "The Making of the New American." In his talk Mr. Hutton explained that it is as important in the making of the boy that he be taught to work, and to save, as well as to play, should the parent wish him to be a successful man. He spoke of the religious element entering into a boy's life and dealt very strongly with the importance of a boy growing up knowing the history of his country, and being taught to love and respect its flag. Mr. Hutton stated that a great many of the boys who are sent to the Industrial School for Boys at Waukesha are there because they have never had the advantage of home training, and that they do not realize that it is really wrong to steal.

A. C. Berard, formerly associated with Mr. Hutton at Waukesha, introduced him with a brief talk regarding the work he is doing at Waukesha. Rev. Wm. Reed, Rev. C. F. Ludwig and Rev. C. A. Mellicke assisted in the program, as well as the high school orchestra, who played several numbers.

Monday each of the troops did some particularly "good turn" for the church which has fostered them, this being the schedule for that day. Tuesday different troops were taken thru the Consolidated Water Power and Paper Co. mill in this city, the Grand Rapids Foundry plant and the Adwagum Paper Products Co. plant, where they were explained the process of manufacture and saw things in actual operation.

The week's program calls for some new feature each day and will keep the scouts busy during their entire anniversary week.

TEACHERS WEEK AT LIBRARY

The week of February 16th has been designated as "Teachers Week" at the T. B. Scott public library when all the teachers will be invited to come in and visit the institution, and see the advantages they can derive by using the library. There are a number of different exhibits that are of educational value and the librarians, Miss Solheim, states that the week should be a very interesting one to all teachers. The teachers of the city have not as a general thing been as frequent users of the library as the rural teachers, the city teachers having access to the school libraries and libraries in private homes, while the rural teachers have access to but few books. The librarians states that they wish to show the teachers what they have to offer them and hope to have every teacher visit the library next week.

CARD OF THANKS

We wish to extend our heartfelt thanks to the kind neighbors and friends who so thoughtfully extended their assistance and sympathy during the sickness and after the death of our beloved relative. Also for the many beautiful floral offerings.

MISS MARION ATWOOD AND HAROLD HANSEN MARRIED

Miss Marion Atwood and Mr. Harold W. Hansen, both well known young people of this city, were married Wednesday morning at ten o'clock at the First Congregational church, Rev. Noel J. Breed of that congregation performing the ceremony.

They were attended by Miss Martha Fiske, as bridesmaid, while Wm. F. Huffman was the groomsmen. The bride was very prettily gowned in a league blue georgette gown, carrying a shower bouquet of pink roses. The bridesmaid was very pretty in a pink organdie gown and carried a shower bouquet of pink sweet peas. Miss Bernice Eggert rendered a vocal solo and played the wedding march. Following the ceremony the bride and party enjoyed a wedding breakfast at the home of the bride's parents, leaving on the noon train for Chicago, Milwaukee, and Lake Mills, where they will spend their honeymoon.

Both of the young people are very well and favorably known in this city, the bride being the daughter of Mr. and Mrs. W. L. Atwood, and a most estimable young lady. Miss Atwood graduated from the Lincoln high school in this city, later being employed as a stenographer in the office of the Consolidated Water Power & Paper Co. She is a talented young woman with a considerable ability, who has a host of friends in this city. Mr. Hansen is a son of Mr. and Mrs. J. P. Hansen of Lake Mills, an ambitious and industrious young man who is well known and well liked in this city. Mr. Hansen is pharmacist at the Wood County Drug store, having held that position before the outbreak of the war, resuming his duties there again this summer. Mr. Hansen served with "Base Hospital unit No. 13 in France during the war, this being a unit organized in Chicago.

Upon the completion of their wedding trip Mr. and Mrs. Hansen will return to this city to make their home. The Tribune wishes their many friends in wishing them every happiness.

STEVENS POINT DEFEATED LOCAL BASKET BALL TEAM

The Lincoln Highschool basketball team was defeated by the Stevens Point Highschool team in one of the hardest fought games of the season on the Lincoln floor Friday night, the final score being 18 to 14 in favor of the visitors. The game was a good one thruout, the score standing ten to ten at the end of the first half. Stevens Point came back in the last half and with a spurt won out with two field baskets made in the last few minutes of play. They also caged three free throws which put them ahead of the local team, both teams securing a total of eight field baskets.

The Highschool will play a return game with the Wausau team on Friday night of this week on the local floor, they having played Wausau earlier in the season on the Wausau floor. Wausau has a good team in the field and a good game is looked for.

Troop One of the Methodist church, and Troop Four, of the Catholic church, played a curtain raiser, Troop Four winning by a 11 to 2 score.

SIGN YOUR NAME

The Tribune received a couple of communications this week to which the writer neglected to sign his name, and for that reason they were not printed. If you are ashamed to sign your name to a letter, don't write. It must be a mighty poor sort of an opinion which you are ashamed to stand back of. We do not care to print your name if you do not want us to, but you will have to sign your communication if you want us to pay any attention to it.

HOLSTEIN BREEDERS MET AT MARSHFIELD TUESDAY

More than one hundred members of the Holstein-Friesian Association met at Marshfield Tuesday at the annual meeting, when they had several good talks and the annual election of officers. The officers were: Jos. Roetz of Arpin, president. F. L. Musbach, Sec. and Treas. Among the speakers were Dr. Abbott, Thos. Spaulding, F. L. Musbach, E. E. Royce, all of Marshfield, and County Agent W. W. Clark. They discussed the cow testing proposition thoroly, Mr. Clark states, and had a very instructive meeting. At the close of the meeting they drew up resolutions in the interest of bettering the conditions of their herds and the sale of the animals.
